

Grazing Management CSP Enhancement

Conservation Practice Job Sheet

- ☐ Improve grazing by using flytraps.

Improve grazing management by using flytraps. This can include throwaway traps, permanent walk through tarps or cattle rubs. Flytraps must be located in the pasture or along laneways.

Attach map, locating facilities, and for portable facilities of the location of the traps.

Farm #	Field #	Livestock #	Type traps used	Dates when Used	Dates when removed if temporary
334	1	50	portable	6/1/2005	6/30/2005
